

2ND GRADE SUMMER READING

Let's continue building vocabulary and exploring great adventures through the reading of story books.

We have a plan in place to keep our rising second graders reading through the summer months. For rising second grade readers, I require each student to read and record a minimum of 20 books during the summer months. To complete this summer reading assignment, please read and record each book read on the attached reading log.

We will celebrate the love of reading with all students mastering the completion of this assignment and returning the completed reading log in August by picnicking at George L. Smith State Park in September.

Please assist your child in locating books of his/her interest and level of reading by visiting a public library since our AR room at David Emanuel Academy is currently undergoing renovations. Should you need to find the level of a book, you can search on the Scholastic website at:
www.Scholastic.com/bookwizard/

Off you go for a summer filled with family fun and story book adventures that entertain your thoughts, teach you new things, and best of all, take you anywhere in the world you'd dream of going.

With Much Anticipation,
Mrs. Renee McGraw
